

Black Steel Pipe Nipples — Product Guide

Schedule 40 welded steel · NPT threads per ASME B1.20.1

Application

Black steel nipples join threaded fittings and equipment in gas, air, oil and non-potable water service. Not for direct burial without coating. Use pipe dope or PTFE tape rated for the service.

Ratings

Size range	Schedule	Working pressure
1/8" - 2"	40	150 PSI class fittings (SAMPLE)
